Questions: Was Jesus a man or myth? What was he really like? How much of what people say about him is just religious fairy tale? What's the big deal about him anyway? Why should I be interested in him? What difference can understanding a 1st century man make in my 21st century life? How does his life story relate to my life story? Why should I know Jesus? What can he do for me? Why does it matter? Why does HE matter?

Big Idea: Discovering Jesus as a man encourages me to relate to him personally and helps me live for him in my own context.
